THE PROBLEM

Higher education is in crisis. Tuition has outpaced inflation by 4x since 1980. A billion people will reach university age by 2030, yet capacity has barely grown. The richest universities hoard endowments while the brightest minds in developing nations are locked out entirely. The global higher education market exceeds \$2.5 trillion annually, yet it serves fewer than 220 million students. In Sub-Saharan Africa, only 9% of college-age people are enrolled. Employers report 40% of graduates lack workforce skills.

THE VISION

The University of Artemis re-engineers humanity's approach to learning. It operates as the Artemis Collegium - an alliance of 10 residential colleges across 6 continents, connected by a synchronous global campus. Students rotate through 6 cities over 4 years. The curriculum is built on four pillars: epistemology, computational thinking, global systems, and creative expression. Students declare missions, not majors.

THE FINANCIAL MODEL

Artemis is self-sustaining from Year 1. The \$100M campaign launches a permanent institution. Tuition revenue of \$300M/year covers all costs with \$262M annual surplus. That surplus self-funds scholarships, builds the endowment, and seeds new Colleges.

\$100M	\$300M/yr	\$262M/yr	\$1.5B
Campaign	Revenue	Surplus	5-Year Total

CAMPAIGN ALLOCATION

\$100M Campaign Allocation by Pillar

Pillar	Amount	%	Purpose
Place (50 Colleges)	\$82M	82%	Property acquisition and repurposing
Minds (Faculty)	\$7M	7%	Faculty compensation bridge
Access (Scholarships)	\$5M	5%	Year 1 scholarship seed
Excellence (Research)	\$3M	3%	Centers of Inquiry startup
Progress (Innovation)	\$3M	3%	Endowment seed, infrastructure

ACADEMIC DISTINCTION

Artemis does not follow the lecture-and-exam paradigm. The four foundational pillars: epistemology, computational thinking, global systems, creative expression. Students declare a Mission rather than a major. Assessment is competency-based. Adaptive Paced Learning adapts to each student's rhythm. Nineteen Centers of Inquiry drive research.

CAMPAIGN MILESTONES

Campaign Timeline and Cumulative Commitments

NAMING OPPORTUNITIES

Opportunity	Amount	Scope
Central Node	\$25M	Venice, San Francisco, or Singapore - ~5,000 students
Tier A College	\$10M	Flagship city - ~2,500 students
Center of Inquiry	\$10M	19 permanently endowed research centers
Tier B College	\$5M	Major global city - ~2,000 students
Distinguished Professorship	\$5M	Generates \$225K/yr in perpetuity
Degree Program	\$3M	55 degree programs
Tier C College	\$2M	Emerging city - ~1,100 students
Scholarship Fund	\$12K	Full scholarship, 4 years

GIVING CIRCLES

Circle	Range	Key Benefits
Founders' Circle	\$10M+	Named endowment, Board of Visitors seat
Guardians' Circle	\$5M-\$9.9M	Named College or Center
Builders' Circle	\$1M-\$4.9M	Named Professorship or Scholarship
Fellows' Circle	\$100K-\$999K	Named scholarship or tutorial room
Friends of Artemis	\$10K-\$99K	Founding Donor Roll
The 99	\$99+	Waitlist priority

GOVERNANCE & ACCOUNTABILITY

Three legal entities: Delaware 501(c)(3) (primary), UK CIO (secondary), Swiss Fondation (tertiary). No individual controls more than one-third of board seats. Annual Big Four audit published publicly. Every dollar tracked in annual impact report.

THE ASK

This is the zero-to-one moment. After this, Artemis is self-sustaining forever.

\$100 MILLION. 12 MONTHS. FOR CIVILIZATION.
